Why VR Program?

ADRC's Missions and Objectives

- Enhance disaster resilience of the member states
- To build safe communities
- To create a society where sustainable development is possible

What are the benefits of VR program?

- Networking
- Capacity building
- Information sharing

AHA ACE Program

ASEAN is preparing its future leaders on disaster management

List of ACE Program Activities

1. Hands On experience - Working with AHA Centre
2. Sharpening Technical Competencies - Specialised Trainings and Skill Enhancement
3. Learning From The Top - Leaders Talk Sessions
4. Real Life Experience on the Ground
5. Expanding Horizon - Study Visits
6. Team Building
7. Managing Project - Special Project Assignment
8. Attaining Global Perspective - Understanding How the Humanitarian System Works
9. Public Speaking - Presenting and Exchanging Ideas
10. Shaping the Future of ASEAN : Writing Vision and Strategy on Disaster Management for the Region

Final thoughts

- VR program is a form of training tool
- VR Program is an effective program and it is a core business of ADRC with good involvement of the member states
- VR alumni members can be very supportive to the work of ADRC and DRR in the region
- As we go forward, VR program should be remained with regular improvement
