Press release of Government of Gujarat

The Government of Gujarat has issued following Press Release on 9th February, 2001 regarding requirements for Relief and Rehabilitation:-

"The Principal Resident Commissioner of Government of Gujarat at Delhi has thanked the people and the large number of organizations, which have risen in support of the earthquake affected people of Gujarat. Contributions have been received from hundreds of institutions, both Government and Non-Government, and from thousands of individuals, in the form of materials, which were required for providing medical aid, food, clothing, shelter etc., to the worst affected areas of Kutch District and other districts of Gujarat. The supplies received have been airlifted from Delhi by special IAF flights, mainly to Bhuj, and also transported direct by truck to Kutch District (Bachau, Anjar, Bhuj and Rapar) or through the Railways.

However, since the immediate need for food, clothes and medical supplies has been met, such items are no longer required. It has, therefore, been decided not to accept contributions of food, clothes, and medical supplies, distilled water and such items after Friday, the 9th February 2001. People wishing to contribute could do so by cheque to the GUJARAT CHIEF MINISTER'S RELIEF FUND, which enjoys benefit of 100% tax exemption under Section 80G. Shelter material such as tents and blankets would also be accepted.

However, people are advised to make very sure that organisations collecting in the name of earthquake relief are genuine and reliable organisations and not to make contributions to unreliable agencies.
