ESDと防災教育 Disaster Reduction Education in ESD

## 持続可能な開発のための教育の特徴

(1)based on the principles and values that underlie sustainable development

(2)deals with the well being of all three realms of sustainability environment, society and economy

(3)promotes life-long learning

(4)locally relevant and culturally appropriate

(5)based on local needs, perception and conditions, but acknowledges that fulfilling local needs often has international effects and consequences,

- (6) encourages formal, non-formal and informal education
- (7) accommodates the evolving nature of the concept of sustainability
- (8) addresses content, taking into account context, global issues and local priorities,
- (9) builds civil capacity for community-based decision-making, social tolerance, environmental stewardship, adaptable workforce and quality
- (10) interdisciplinary. No one discipline can claim ESD for its own, but all disciplines can contribute to ESD
- (11) uses a variety of pedagogical techniques that promote participatory learning and higher-order thinking skills. Source: UNDESD International Implementation Scheme, UNESCO, October 2005
