## ● Participation in International Conferences

### 7th UN-SPIDER Regional Support Offices (RSO) Meeting

In accordance with the cooperation agreement between the United Nations Office for Outer Space Affairs (UNOOSA) and the Asian Disaster Reduction Center (ADRC) signed on June 2009 on the establishment of the ADRC UN-SPIDER Regional Support Office (RSO), said RSO has been established on the ADRC premises and is being operated by ADRC staff members as coordinators of the ADRC UN-SPIDER RSO. There are currently 20 regional support offices worldwide.

In its capacity as an RSO, ADRC participated in the 7th UN Platform for Space-based Information for Disaster Management and Emergency Response RSO Meeting, which was held in conjunction with the UN-SPIDER+10 Anniversary Conference. Held from 6 June, the meeting was attended by more than 20 participants from RSOs around the world. During the meeting, the following topics were discussed:

1. Reports on activities of each RSO in 2015
2. Planning activities of each RSO in 2016
3. Discussion of the implementation of TAM recommendations
4. Regional breakout groups: work planning 2016-17
5. Feedback from breakout groups
6. Collaboration for the ongoing implementation of knowledge management

At this meeting, ADRC gave a presentation on its 2015 activities and accomplishments as well as its plans for 2016, and discussed many ideas with the secretariat and other RSOs.

### Personnel Change

Senior Researcher Mr. Takeshi NAKAO retired from ADRC at the end of May. All of us at ADRC offer our best wishes for his continued success.

Message from Mr. Takeshi NAKAO:

In my two years at ADRC, I have learned a great deal about the classification and scale of disasters that occur across Asia, and have had many opportunities to interact with people from all around the globe through my work. I have enjoyed giving presentations at overseas conferences and I am sure that this experience will prove useful to me in my future work. I would like to express my sincerest appreciation to all of my professional counterparts, our partners on the Sentinel Asia project, ADRC visiting researchers, and the entire ADRC staff. It has been a pleasure working with all of you, and I look forward to crossing paths with you again in the future.
