トピック Asian Conference on Disaster Reduction 2020

説明

[Background]

Despite continued efforts by member countries to implement the Sendai Framework for Disaster Risk Reduction (SDFRR), the damage caused by disasters has increased in recent years. Extreme weather events around the world show that it is urgent to execute Disaster Mitigation and DRR Strategies that take climate change into greater consideration, especially in the context of the coronavirus pandemic.

How do we deal with the dual risks of climate change and COVID-19? The ACDR2020 will share the situations of the member countries and discuss future actions to be taken by focusing on two themes: 1) DRR Measures and Challenges to the Intensifying Disasters Risks; and 2) Disaster Preparedness and Response Measures Amidst COVID-19.
