

Online Tsunami Seminar

3-Part Series
24 November 2020
22 December 2020
26 January 2021

Dr. Anawat Suppasri

Associate Professor,
Tsunami Engineering Research
Field, Hazard and Risk Evaluation
Research Division, IRIDeS,
Tohoku University

Profile

Dr. Anawat Suppasri completed his bachelor degree from Chulalongkorn University in 2005, master degree from Asian Institute of Technology in 2007 and PhD in tsunami engineering from Tohoku University in 2010.

After the 2011 Tohoku tsunami, Tohoku University established the International Research Institute of Disaster Science (IRIDeS) in April 2012 which he started his faculty position as associate professor since then.

His research focuses on tsunami numerical simulation, tsunami fragility analysis, tsunami warning, tsunami evacuation and disaster mitigation education.

He contributes to UN agencies including World Tsunami Awareness Day related activities and his works received awards from academic societies as well as national institutions.
