

1. Summary of Survey

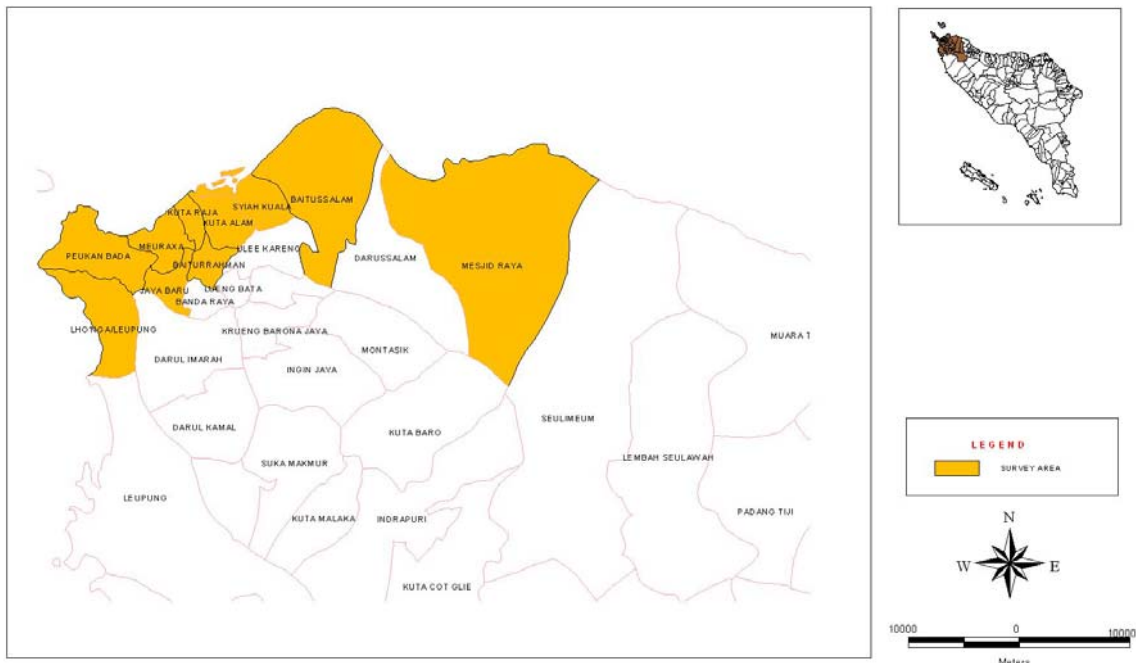

1.1 Objectives

The purposes of this research are as follows:

- To assess and evaluate current situation and community's capacity to respond to natural disasters
- To propose a strategy for dissemination of tsunami knowledge and to raise public awareness regarding tsunami disaster.

1.2 Target Area

SURVEY AREA IN BANDA ACEH AND ACEH BESAR

No	District	Sub District
1	Banda Aceh	Kuta Alam
2	Banda Aceh	Kuta Raja
3	Banda Aceh	Jaya Baru
4	Banda Aceh	Meuraxa
5	Banda Aceh	Syiah Kuala
6	Banda Aceh	Baiturrahman
7	Aceh Besar	Baitussalam
8	Aceh Besar	Pekan Bada
9	Aceh Besar	Lhoknga
10	Aceh Besar	Mesjid Raya

1.3 Period of field survey

	field survey	Input the survey result	Making a report

1.5 Survey Methodology

Different methodologies have been adopted to collect data from distinctive target groups as follows

- Residents : Questionnaires followed completely by an interview
- School Children : Questionnaires followed completely by an interview and filled under the instructions of a teacher
- Government officers : Questionnaires filled independently by respondents themselves

The location of survey is in Banda Aceh and Aceh Besar district that affected by tsunami. The study area is consisting in 10 sub-districts for residents covering the whole affected area in Banda Aceh and Aceh Besar. The study team consists of 13 surveyors for interviewing residents, 17 surveyors for elementary school students, 13 surveyors for elementary school teachers and 1 surveyor for interviewing government officers. The process of survey is starting by identifying the location of survey and the number of samples in each location and then followed by sending the surveyor to their locations and directly interview the respondents one by one.

Interviewed with residents and elementary school children filled in the questionnaire form in the affected area in Banda Aceh city

1.6 Contents of questionnaire

- Residents: reaction at the occurrence of tsunami, information during evacuation, knowledge about tsunami, countermeasures against natural disasters, etc.
- School children: awareness of natural disasters, knowledge about tsunami, communication within the family on natural disasters
- Teachers: curriculum to study natural disasters, educational materials.
- Government officers: training/seminar for natural disasters, countermeasures against natural disasters, potential sources and information channel.
