### 2.2 School

### 2.2.1 School children

Number of samples: 1,005

Q1. Do you discuss what you have learnt in the school with your family at home?

| No | Discuss the lessons with family | Number | Percentage |
| :---: | :---: | ---: | ---: |
| 1 | Yes | 775 | 77.11 |
| 2 | No | 230 | 22.89 |
| Total |  | 1005 | 100.00 |

Most of students, $77,11 \%$ discuss the subject at home with their family.

Q2. Where did you stay when the Tsunami occur?

| No | Stayed when tsunami occurred | Number | Percentage |
| :--- | :--- | ---: | ---: |
| 1 | Sunday school | 0.00 | 0 |
| 2 | House | 82.09 | 825 |
| 3 | School | 0.80 | 8 |
| 4 | Town | 5.17 | 52 |
| 5 | Beach | 1.09 | 11 |
| 6 | Other | 10.85 | 109 |
| Total |  | 100.00 | 1005 |

Most of the students, $82,09 \%$ were at home because the tsunami occurred on Sunday morning that most of the students were still at home with their families.

Q3. What type of natural disasters are you aware of?

| No | Natural Disaster | Number | Percentage |
| :---: | :--- | ---: | ---: |
| 1 | Floods | 15 | 1.49 |
| 2 | Landslides | 56 | 5.57 |
| 3 | Earthquakes | 194 | 19.30 |
| 4 | Tsunami | 740 | 73.63 |
| Total |  | 1005 | 100.00 |

Almost all students aware of tsunami and earthquake. They were trauma with last tsunami.

Q4. Have you ever talked about natural disasters (Floods Landslides Earthquakes Tsunami etc.) with your family before the Tsunami occurred on $26^{\text {th }}$ December?

| No | Talk about natural disaster | Number | Percentage |
| ---: | :--- | ---: | ---: |
| 1 | Yes | 370 | 36.82 |
| 2 | No | 635 | 63.18 |
| Total |  | 1005 | 100.00 |

Before tsunami, most of the students didn't talk about natural disasters with their family. This is because they never had such big disaster.

Q5. Have you discussed with your family about the Tsunami after it occurred on $26^{\text {th }}$ December?

| No | Discuss about tsunami <br> with family | Number | Percentage |
| ---: | :--- | ---: | ---: |
| 1 | Yes | 820 | 81.59 |
| 2 | No | 185 | 18.41 |
|  |  | 1005 | 100.00 |

After the tsunami on 26 Decemebr 2004, many students (81.59\%) talked about natural disaster with their families. This was because they were very afraid with the disaster after they saw by themselves that big disaster. It was the same that the parents have really aware with this kind of disaster so that they give any advice to their children what should they do when the disaster happen again.

Q6. Have you ever studied about natural disasters such as floods, landslides, earthquakes and tsunamis before?

| No | Discuss about tsunami <br> with family | Number | Percentage |
| ---: | :--- | ---: | ---: |
| 1 | Yes | 643 | 63.98 |
| 2 | No | 362 | 36.02 |
|  |  | 1005 | 100.00 |

Q6. Have you ever studied about natural disasters such as floods, landslides, earthquakes and
ts unam is before? ( $\mathrm{N}=1005$ )

$\square$ Yes
No

Most of the students (63.98\%) have studied about natural disaster, such as floods, landslides, and earthquake, but they never study about tsunami.

Q7. Would you like to study about natural disasters such as floods, landslides, earthquakes and tsunamis in the future?

| No | Discuss about tsunami <br> with family | Number | Percentage |
| ---: | :--- | ---: | ---: |
| 1 | Yes | 933 | 92.84 |
| 2 | No | 72 | 7.16 |
|  |  | 1005 | 100.00 |

Most of the students liked to study about natural disaster, because they wanted to be saved if the next disaster happens again.

Q8. Do you know the cause of a Tsunami?

| No | Cause of tsunami | Number | Percentage |
| :---: | :--- | ---: | ---: |
| 1 | Anger of God | 377 | 37.51 |
| 2 | Earthquake | 364 | 36.22 |
| 3 | Strong wind | 3 | 0.30 |
| 4 | No Idea | 261 | 25.97 |
| Total |  | 1,005 | 100.00 |

Most of the students (37.51\%) answered that the cause of the tsunami were anger of god. This was because of they always hear from the speakers in the mosques that tsunami occurred because of the human have not followed the God order, so the God gave his punishment to human being, the punishment was in form of tsunami, so that the survivors of that tsunami and other people will obey all the God order. But some of students (36.22\%) answered that the cause of tsunami was the earthquake.

Q9. What should be done when tsunami occurs?

| No | What should be done when <br> tsunami occurs | Number | Percentage |
| :--- | :--- | ---: | ---: |
| 1 | Stay at home | 40 | 3.98 |
| 2 | Escape to a high place | 926 | 92.14 |
| 3 | Head out offshore by a boat | 2 | 0.20 |
| 4 | No idea | 37 | 3.68 |
| Total |  | 1,005 | 100.00 |

Most of the students (92.14\%) answered that they will run to higher places if the tsunami occurs again. This was because in the last tsunami they have learnt that the safe place was that the high place, such as mountains, high buildings, and hill. They have also discussed with their teacher, families or friends about what should they do to prevent from the disaster.

Q10. What do you do in an event of a sudden big sea drop?

| No | What people do in an event of a sudden <br> big sea drop | Number | Percentage |
| :---: | :--- | ---: | ---: |
| 1 | Go for fishing | 51 | 5.07 |
| 2 | Escape | 926 | 92.14 |
| 3 | Play there | 28 | 2.79 |
|  |  | 1005 | 100.00 |

Most of the students (92.14\%) answered that they will run out side when they see sea water drop. Another was also because they already have many experiences from last tsunami. They have learnt many things regarding tsunami from their teachers and families.

Q11. Have you studied how to escape from a natural disaster either at school or home?

| No | Place to study natural disaster | Number | Percentage |
| :---: | :--- | ---: | ---: |
| 1 | School | 306 | 30.45 |
| 2 | Home | 203 | 20.20 |
| 3 | Never | 496 | 49.35 |
| Total |  | 1005 | 100.00 |

The respondents who answered that have studied and those who answered never are almost the same. For those who have studied were mostly from school.

Q12. Which of following items are available at your home?

| No | Items available at home | Number | Percentage |
| :---: | :--- | ---: | ---: |
| 1 | Television | 774 | 33.51 |
| 2 | Radio | 683 | 29.57 |
| 3 | Telephone | 271 | 11.73 |
| 4 | Mobile phone | 515 | 22.29 |
| 5 | Internet | 43 | 1.86 |
| 6 | Nothing | 24 | 1.04 |
| Total |  | 2,310 | 100.00 |

### 2.2.2 Class teachers

Number of samples: 84

Q1. How many children did you have in your class as of 26th Dec., 2004? Please answer in Arabic numerals.

| No | Number of students in each <br> class before tsunami | Number | Percentage |
| :---: | :--- | ---: | ---: |
| 1 | $0-9$ | 4 | 4.76 |
| 2 | $10-19$ | 3 | .57 |
| 3 | $20-29$ | 43 | 51.19 |
| 4 | $>29$ | 34 | 40.48 |
| Total |  | 84 | 100.00 |

Before tsunami, the avarage number of students in each class in schools was 20 29 students. The other respondents answered their students in the class were 0 9 students, these respondents were the teachers from handicap school.

Q2. How many children are affected in your class? Please answer in Arabic numerals for following each item

Q2. a. Number of Dead students for each class

| No | Number of Dead students for <br> each class | Number | Percentage |
| :---: | :--- | ---: | ---: |
| 1 | $0-9$ | 57 | 67.86 |
| 2 | $10-19$ | 23 | 27.38 |
| 3 | $20-29$ | 4 | 4.76 |
| Total |  | 84 | 100.00 |

The number of dead students in each class mostly between 0-9 students per class, $67.86 \%$. The highest number of dead students including missing was affected in the schools located very close to the coastal area, 4.76\%.

Q2. b Number of injuries for each class

| No | Number of injury students for <br> each class | Number | Percentage |
| :---: | :--- | ---: | :--- |
| 1 | $0-9$ | 76 | 90.48 |
| 2 | $10-19$ | 8 | 9.52 |
| Total |  | 84 | 100.00 |

The number of students injuries in class mostly below 10 person per class, 90.48\%. The others, $9.52 \%$, said that the number of injuries was between 10 and 19 students per class.

Q2. c Number of displaced and homeless for each class

| No | Number of displaced and <br> homeless students for each <br> class | Number | Percentage |
| :---: | :--- | ---: | :---: |
| 1 | $0-9$ | 71 | 84.52 |
| 2 | $10-19$ | 13 | 15.48 |
| Total |  | 84 | 100.00 |

Q2c Number of displaced and homeless students for each class ( $\mathrm{N}=84$ )
15.48\%

-0-9
10-19

Q2. d. Number of students who lost their family for each class

| No | Number of students who lost <br> their family for each class | Number | Percentage |
| :---: | :--- | ---: | :---: |
| 1 | $0-9$ | 67 | 79.76 |
| 2 | $10-19$ | 17 | 20.24 |
| Total |  | 84 | 100.00 |

Q3. How many children are deemed PTSD (Post Traumatic Stress Disorder) caused by Tsunami disaster in your class? Please answer in Arabic numerals

| No | Answer | Number | Percentage |
| :---: | :--- | ---: | ---: |
| 1 | $1-9$ | 40 | 47.62 |
| 2 | 0 | 44 | 52.38 |
| Total |  | 84 | 100.00 |

From 84 teachers were interviewed, some of them, $48 \%$ said that their students were deemed PTSD caused by tsunami disaster. The other, $52 \%$, said that their students were not deemed PTSD.

Q4. Before 25th December, 2004, have you ever talked about natural disasters with your students?

| No | Answer | Number | Percentage |
| :--- | :--- | ---: | :---: |
| 1 | Yes | 49 | 58.33 |
| 2 | No | 35 | 41.67 |
| Total |  | 84 | 100.00 |

Before tsunami disaster, $58.3 \%$ of teachers have talked about natural disaster with students. They talked mostly about foold, landslide, earthquake and volcano eruptions, but they never talked about tsunami. The other $41.7 \%$ were never talked about the natural disasters.

Q5. Have you talked about natural disasters with your students after 26th December, 2004?

| No | Answer | Number | Percentage |
| :--- | :--- | :--- | ---: | :---: |
| 1 | Yes | 78 | 92.86 |
| 2 | No | 6 | 7.14 |
| Total |  | 84 | 100.00 |

After tsunami disasters, many people were aware of this disaster, including the teacher. This can be seen from the question above that mostly, $92.9 \%$ of the teacher talked about natural disaster with their students. They talked mostly about last tsunami and earthquake.

Q6. Do you have subjects for learning about natural disasters in the curriculum?

| No | Answer | Number | Percentage |
| :--- | :--- | ---: | :---: |
| 1 | Yes | 51 | 60.71 |
| 2 | No | 33 | 39.29 |
| Total |  | 84 | 100.00 |

About the subjects for learning about natural disasters in the curriculum, 60.70\% of the teachers said that they have, but the other $39.30 \%$ said they didn't have the subjects for learning the natural disasters.

Q7. (To the person who answered "Yes" in Q6.) Do you think that they are effective for disaster reduction (or to reduce human losses)?

| No | Answer | Number | Percentage |
| :--- | :--- | ---: | :---: |
| 1 | Yes | 30 | 58.82 |
| 2 | To be improved | 16 | 31.37 |
| 3 | Not | 5 | 9.80 |
| Total |  | 51 | 100.00 |

From teacher who said that they have the subjects for learning about natural disaster, $90.2 \%$ of they said that the subjects were effective for disaster reduction, even some of them said that the subjects to be improved. The other 9.8\% said that the subjects were not effective for disaster reduction.

Q8. (To the person who answered "No" in Q6.) Do you feel the necessity for those lessons? ( $\mathrm{N}=33$ )

| No | Answer | Number | Percentage |  |
| :--- | :--- | :--- | ---: | :---: |
| 1 | Yes | 33 | 100.00 |  |
| 2 | No | 0 | - |  |
| Total |  |  |  | 33 |

For the teacher who answered that they didn't have subjects for learning the natural disaster, all of them said that it was necessary to include the subjects in the curriculum

Q9. (To the person who answered "Yes" in Q8.) Do you have enough skills to teach students about how to protect themselves against natural disasters?

| No | Answer | Number | Percentage |
| :--- | :--- | ---: | :---: |
| 1 | Yes | 17 | 51.52 |
| 2 | No | 16 | 48.48 |
| Total |  | 33 | 100.00 |

(To the person who answered "Yes" in Q8.) Do you have enough skills to teach students about how to protect themselves against natural disasters? ( $\mathrm{N}=33$ )

■Yes
$\square$ No

For this situation, half of the teachers, $51.5 \%$ said yes they have skills to teach students about how to protect themselves against natural disasters. The others said that they have not enough skills to teach.

Q10. Do you think which education material is most effective for disaster education?

| No | Education material which most effective | Number | Percentage |
| :--- | :--- | ---: | ---: |
| 1 | Reading book | 36 | 42.86 |
| 2 | Picture books | 19 | 22.62 |
| 3 | Brochures | 0 | 0.00 |
| 4 | Posters | 2 | 2.38 |
| 5 | Video | 27 | 32.14 |
|  | Total | 84 | 100.00 |

Most of the teachers said those education materials which most effective for disaster education are reading books, $42.86 \%$, videos $32.14 \%$, and picture books $22.62 \%$. Only $2.38 \%$ said that posters were the most effective material.

Q11. Do you think evacuation drills on a regular basis are effective for disaster reduction (or to reduce human losses)?

| No | Evacuation drill are effective | Number | Percentage |
| :--- | :--- | ---: | ---: |
| 1 | Yes | 74 | 88.10 |
| 2 | No | 10 | 11.90 |
| Total |  | 84 | 100.00 |

Q11. Do you think evacuation drills on a regular basis are effective for disaster reduction (or to reduce human losses)? ( $\mathrm{N}=84$ )
$11.90 \%$

88.10\%

Based on the teachers' opinion that $88.10 \%$ of them said that evacuation drill will be effective for disaster reduction. They believe that by practicing how to escape and what should be done if the earthquake occurs, will gain more knowledge and capability of the students to reduce the damage or human losses.
